

Healthy Air Oregon Campaign Endorsement Form
Business, Government and Non-Profits Working Together for a Healthier Future!

(Name of Non-profit/Government Agency) cares about the health of people in our community,
the health of our employees and about the quality of Oregon's air.

We hope to do all we can to encourage our customers to learn about simple and effective actions they can take to help keep our local air clean and to conserve energy resources.

To support these goals, we are a partner for the *No Idling* initiative introduced by Beyond Toxics. This initiative has been adopted by Lane County, Multnomah County, Lane Regional Air Protection Agency, the Department of Environmental Quality and over two dozen businesses.

Our business/agency is participating in the following ways:

1. **Endorse a No-Idling policy for your community;**
2. **Adopt the policy for your own fleet of vehicles (if appropriate);**
3. **Place No Idling signs on your premises (contact us for details);**
4. **Display public education materials for your customers to take if they choose;**
5. **Consent to being listed as a media contact for future media events.**
6. **Allow us to link to your website from the HAO site.**
