

# DIY BLEACH TO WHITEN CLOTHES

**Method #1:** Use the sun's ultraviolet rays to whiten clothes. Install a clothing line outside and hang clothes.

**Method #2:** Add 1/2 cup of Baking Soda to washer drum before continuing with laundry as usual.

**Method #3:** Add 1 cup of Hydrogen Peroxide to the washer's automatic bleach dispenser for every load.  
*Do not pour directly on clothes.*

**Method #4:** Presoak whites in tub, sink or washer drum. Create a solution of 6 parts warm water to 1 part distilled white vinegar. Soak overnight, then wash as usual.
