Final-San-O (Non-selective) Grass and Broadleaf Herbicide	Final-San-O is a fast-acting weed, grass, algae and moss killer. It's a non-selective herbicide that controls many common annual weeds. It suppresses the growth of some bi-annual and perennial weeds. NOP Approved and OMRI® Listed*, Final-San-O can be used at any time during the year, and areas can be re-sown 5 days after treatment.
Weed Zap (Non-selective)	Non-selective, broad spectrum, biodegradable, foliar herbicide is made from clove and cinnamon oils. It will only control actively growing emerged green vegetation and controls annual and perennial broadleaf and grassy weeds. It will only affect plants that are coated with the spray solution and does not damage non-green woody plants. <a href="https://www.arbico-organics.com/product/weed-zap-jh-biotech/natural-organic-weed-control">https://www.arbico-organics.com/product/weed-zap-jh-biotech/natural-organic-weed-control</a>
