

WEST EUGENE CLEAN ENERGY PROJECT

Air Conditioner & Air Purifier Distribution Event

Beyond Toxics is seeking eligible households to receive free portable air conditioners and air purifiers as part of our West Eugene Clean Energy Project (WECEP). WECEP is an expansion of our Bethel Clean Energy Project, which aims to bring clean, cost-effective home energy upgrades to those most at risk of the impacts of climate change and industrial pollution.

Are you eligible to receive a FREE Air Conditioner or Air Purifier? You may qualify if:

- Your home is within the green boundary of this map
- Someone in your household is at risk of heat-related illness
- You qualify for OHP, SNAP, or other government assistance
- You don't already have air conditioning or an air purifier

Fill out our Eligibility Form to see if you qualify. Due to high demand and limited resources, we will prioritize those most at risk for heat-related illness.
