

Shawn Named Visionary Leader!

Our very own Shawn Donville, Vice President and co-owner of Mountain Rose Herbs, was recently honored by one of our beloved non-profit partners for his leadership and service! Shawn, former President of [Beyond Toxics](#)' Board of Directors, was completely surprised when they presented him with the Visionary Leadership award at the Bee-Fest Celebration!

In true form, Beyond Toxics threw a fabulous party filled with live music, sweet treats, face painting, and of course chilled [Hibiscus High](#) Tea. Eugene, Oregon is gaining recognition as the most bee-friendly city in the U.S. for our work protecting pollinators and specifically for passing a resolution to ban neonicotinoids pesticide application on city property. We are proud to live and work in a city leading the way to fight colony collapse and protect our food system.

Mountain Rose is a long-time supporter of Beyond Toxics. We support their mission through charitable giving, disseminating literature, in-kind donations, and employee volunteer projects. Annually, we remove invasive plants by hand to maintain a no-spray corridor along a scenic roadway in Oregon. “Beyond Toxics represents the finest culmination of hard-working individuals that produce the results we can all live by. Our industry, livelihoods, and communities are dependent upon a healthy landscape, and our prospects would be very bleak indeed if we did not have the steadfast commitment of Beyond Toxics.” - Shawn Donnille
